FROM: David Peters, P.E., Acting Deputy Commissioner
Department of Public Works 

PROJECT: FC NO. 7231-00: General Wastewater Pump Station Improvements

REF: Public Works Recommendations on Received Bids.

The General Wastewater Pump Station Improvements involves addition of six (6) new pump stations, upgrades to the remaining eight (8) pump stations, and a new telemetry system to monitor the pump stations at the water reclamation centers. This is the third and largest of the pumping station capital improvement projects due under the SSO Consent Order. We need assistance of all involved City Departments to expedite the award of this project to meet the Notice to Proceed date of 9/1/2000 mandated in the SSO Consent Order.

Three (3) bids were received on the above referenced project and reviewed for technical content by the Department of Public Works. The Department of Public Works recommends that you award the project to the low bidder, WWPS, Inc. for the submitted bid amount of \$4,980,675. I will need to walk the paper into the August 1, 2000 Utilities Committee Meeting in order to make the August 7, 2000 council date.

Thank you for your assistance. If you need any additional information, please do not hesitate to call me at (404) 330-6230 or call John Reinhard at (404) 350-4981.

MEMORANDUM

TO: Felicia Strong-Whitaker, Director

FROM: Susan Bronston Sullivan, Acting Director 
Office of Contract Compliance

DATE: July 24, 2000

RE: **Recommendation for FC- 7231-00**
General Wastewater Pump Station Improvements

We are in receipt of three (3) bids for the above referenced project. The Office of Contract Compliance has carefully reviewed the bid to determine responsiveness. The review has been conducted in a manner consistent with the rulings of the U.S. Supreme Court and the 11th Circuit Court of Appeals. In accordance with the ruling in Engineering Contractors of South Florida v. Metropolitan Dade County, 122 F. 3d 895, 926 (11th Cir. 1997), the City of Atlanta's Equal Business Opportunity Ordinance establishes aspirational goals for participation by firms owned and controlled by minorities and females and provides for the waiver of those goals in appropriate circumstances. Minority and female participation goals were set for this project. Where every goal was not met by a responsive bidder, adequate information was submitted by that bidder and a waiver was granted with the courts' requirements that all goals be narrowly tailored for every project. Failure to provide for and to grant, where appropriate, waivers of minority and female participation goals would make the City of Atlanta's EBO program inconsistent with the line of cases beginning with the City of Richmond v. Croson, 488 U.S. (1989) and subject to challenge.
